PROFILE

Motivated and curious detail oriented with a technical engineering background (Degree from Politehnica University Timisoara), complemented by a Master's degree in Engineering and Logistic Systems, my IT Tech journey started as a Data Marking Engineer position, nowadays I am working as a QA Engineer and I am ready to transition into **Web Apps Developer** *position.*

I am eager to bring to SOFTNRG my robust foundation skill set - that I am completing with the Frontend Development(React) Course at IT SCHOOL - Javascript (API and DOM manipulation), CSS/Tailwind, and HTML, encompassing hands-on experience with responsive web design and version control using GIT into my Portfolio Projects and passion for frontend development (volunteering for `Asociatia de oportunitati si cariere`), creativity to a dynamic team, currently learning React.js, contributing to innovative and high-quality web projects.

PORTFOLIO

Developed a personal portfolio (Portfolio Link) showcasing, **Javascript, CSS / SCSS** and **HTML.**

Project 1: Digital Planner|Javascript, CSS, HTML

Description: a digital planner software application designed to help users manage their tasks, schedules, and goals digitally

Objective: Enable users to set, track, and achieve their goals by breaking them down into actionable tasks through type of task, priority task, status type, integrating ES6, DOM manipulation, Objects, Javascript basics

Responsibilities: The challenging part that needed more research was implementing an `Add new task` button that has the functionality that allows you to create a card-task and personalize your task by title, date, task type, priority type, allocated time, and set its status

Achievements: developed from scratch a planner app that involves a combination of technical, user experience, and project management goals.

Main goals: keep updating and improving the app

Currently, I am working at a ***Japanese Restaurant: Cat Caffee & Food |Javascript, SASS, API***

Description and objective: a user-friendly landing page showcasing cards for every specific cat that allows you to see its specifications and have a button saying 'Let's meet and play!' to add it to your restaurant reservation and icons for adding it as favorites, using Javascript, fetch API

Responsibilities and achievements: The challenging part is that I am creating the landing page components in JS along with NPM and more research will be needed for saving users' cat preferences into localStorage. The app allows you to choose a cat from the catalog and spend time with it, take your dinner, create your pet- therapy

Jr Frontend Developer- Asociatia Oportunitati si Cariere(Volunteer)

April 2024 – Present

- Deployed an updated association's landing page (mobile and desktop) featuring a better overview of the ONG's aim and projects like the job-

EDUCATION

Front-End Development(with React) - IT SCHOOL
03.2024 – present
Skills: React.js, Javascript, CSS/ Tailwind, HTML
Portfolio Link

Front-End Development(Trainee) – ILBAH Studio
COR/ 351201 degree
10.2021 - 02.2022
Skills: HTML, CSS/ Bootstrap and Javascript

Masters In Engineering and Logistic Systems Management
Politehnica University Timisoara
09.2015 – 07.2017

FACULTY OF MANAGEMENT IN PRODUCTION AND TRANSPORTATION - Politehnica University Timisoara
Economic Engineering for Industrial Domain
09.2011 – 06.2015

TECH SKILLS

- JAVASCRIPT
- SASS, TAILWIND, BOOTSTRAP
- GIT, VERSION CONTROL SYSTEMS
- NPM/ NODE.JS
- DATABASE/API INTEGRATION
- JIRA, NETLIFY, FIGMA
- RESPONSIVE/MOBILE DESIGN
- CROSS-BROWSER DEVELOPMENT
- WEB ACCESSIBILITY, WEB TESTING
- LINUX, VS CODE

SOFT SKILLS

- SELF-LEARNING, ACTIVE-LEARNING
- SELF-DISCIPLINE, SELF-CONFIDENCE
- TECH SAVVY COMMUNICATION
- GOOD COMMUNICATION, ACTIVE LISTENING, TEAMWORK
- ANALYTICAL THINKING
- CREATIVE MIND
- COMPLEX PROBLEM SOLVER

ONLINE COURSES

JavaScript: The Advanced Concepts by Andrei Neagoie (Udemy)
The Complete Web Developer: Zero to Mastery by Andrei Neagoie (Udemy)

search app in a 5-member team, resulting in a significant increase in user engagement and a notable rise in job applications
- Collaborated with cross-functional experienced teams(UI/UX, Backend team) to update Vanilla Javascript projects and optimize mobile responsiveness and desktop enhancements
- Participated in a collaborative GitHub, Discord, and Google Meet environment, leading to timely project completion
- Committed to the organization's values, I want to make a positive impact on the community
- **Skills**: Vanilla JavaScript, CSS/SASS, HTML, GIT, Figma, Github

WORK HISTORY

QA Manual Engineer - Cognizant Softvision
02.2022 - Present
Responsabilities:
- Conducting tests for simulation and re-simulation, identifying bugs, and setting them in the internal tool based on documentation using Confluence
- Reporting discovered bugs and managing the bug database, using Jira
- Participating in weekly meetings with the client and the PM and developing new way strategy of for testing complex tickets
- Participating in daily meetings with the PM and the team to receive updates and reprioritize tasks based on client needs

Achievements:
- Archived post-release defects through the resolution of resimulation test issues, elevating software excellence in IT in 2023
- Communicating efficiently with developers, project manager, and other team members to ensure maximum transparency during testing
- Improved code quality metrics by 70 - 150 tickets daily, boosting customer satisfaction ratings
- Enhanced software quality by expanded test coverage with 3-4 different types of synthetic scenarios, within 3 quarters
- **Skills**: Jira, Testing Tools, AI Testing, Testing and Debugging, Confluence, communication, Problem Solving, Strategic Thinking, Attention to Detail

Transport Coordinator - EU.TRA.LOG.REMI
10.2020 – 01.2022
- Negotiated with EU stakeholders to significantly increase the client and provider database within a short timeframe
- Enhanced international transport routes, resulting in reduced transit time and cost savings
- **Skills**: Collaboration and communication, Project Management, Problem Solving, Efficiency Optimization

Industrial Engineer- KROMBERG & SCHUBERT ROMANIA TI
08.2019 – 03.2020
- Enhanced over 150 Bills of Materials (BOM) in 2020, optimizing processes and reducing errors, leading to increased efficiency
- **Skills**: Analytical Thinking, Attention to Detail, Problem-Solving

Data Marking Engineer and Team Support Engineer – VEONEER ™
01.2017 – 07.2019
- Enhanced data accuracy through improved visualization and analysis techniques
- Led a team to significantly reduce data processing time

- **Skills**: Data analysis and visualization, Process optimization, Leadership and time management, Attention to detail, Jira, Testing Tools, AI Testing
